Terms: swapstaking.com (Developer)

Introducing

- 1.0 By registering on this website you agree to the terms of this agreement.
- 1.1 By registering on the **swapstaking.com**, you agree and fully accept the following Terms of Use and Privacy Policy.

Importing assets & related issues

- 2.0 SwapStaking[™] is a private agreement between the SwapStaking[™] hereinafter referred to as swapstaking.com and our Participant. Users process all financial transactions solely at their discretion and at their own risk, fully understanding that the blockchain branch for withdrawing funds on this resource can only be executed in the following values: TRX TRC-20, USDT TRC-20
- 2.1 If the network chain is specified incorrectly, or the added address does not match the corresponding protocol chain, then the transaction will not be implemented/confirmed, and SwapStakingTM will not bear any level of responsibility for this. The size and period of SwapStakingTM assets is determined personally by each user.
- 2.2 Each Participant can have only one registered account. Registration by one person of more than one account in the referral structure may lead to the blocking of funds on all related accounts. [https://www.chainalysis.com] & [https://websiteseochecker.com/ip-location]. If the administrative service of the resource discovers suspicious activity and/or the affinity of IP addresses, all affiliated accounts can be frozen.

Send (export)

- 3.0 Your assets are sent on all days of the year, including weekends and holidays, 24 hours a day, with the rare exception of technical failures or force majeure attacks
- 3.1 swapstaking.com is not responsible for the speed and maintenance of Matic Network or BNB Smart Chain Network for any sent cryptocurrencies.
- 3.2 An important note about Air-Drops: if the wallet user has never imported / staked his own funds / any crypto assets, thereby not increasing his account balance; if the wallet participant doesn't have income from the referral, but still sent MATIC (from aidrops, etc.) to his wallet, then swapstaking.com has the right to refuse to execute this transaction.

Responsibility

- 4.0 swapstaking.com cannot cancel cryptocurrency transfers made to an incorrectly specified wallet address
- 4.1 Although this is rather an exception to the rules and a rare phenomenon, in order to normalize problematic situations, swapstaking.com will follow its own algorithms in order to minimize losses for all participants; create the least compromise for all participants.
- 4.2 We strongly recommend to import only those amounts that you can afford to keep in turnover.
- 4.3 You fully understand that the assets you have entered in this interface will be converted to another cryptocurrency issuer, that is, you're fully aware of the exchange and issuance of your assets in the Polygon MATIC cryptocurrency; but other names of cryptocurrencies will also be available for withdrawal/sending, and the fees will be either 0.0% or up to 10% for some complex assets (ex. USDT), with which it is impossible to merge for free sending (& also flood protection).
- 4.4 swapstaking.com is not responsible for the restriction, destruction, elimination by third parties / other parties of access to the resource on which the necessary data is located for the implementation of processes for uninterrupted operation

4.5 Important notice about the registration of referral accounts to increase your own profitability: if you force the referral system yourself in your favor, and we find any evidence of this (similarity of IP, cookies, similarity of mails) - we have the right to cancel/ deduct all your income, and return you only your own funds

Costs

- 5.0 SwapStakingTM may request a sending fee from 0% to 1%
- 5.1 You fully agree that the size of the assets you have entered in terms of USD may differ significantly, change both up and down. You are engaged in the placement of certain assets available for input at the current moment, and receive in exchange TRX with actively accrued remuneration (liquidity farming 2.0)

Conflicts, issues

- 6.0 SwapStaking[™] cannot be held responsible for possible losses as a result of the movement of the cryptocurrency market, or world news affecting the redistribution of assets by large holders.
- 6.1 swapstaking.com does not send unsubstantiated electronic or other messages (fishing-apps, or spam) to Users.
- 6.2 swapstaking.com is not responsible for temporary technical failures and interruptions in the work of the Project, for temporary failures and interruptions in the operation of communication lines, other similar failures, as well as for computer problems from which the User accesses the Internet.
- 6.3 swapstaking.com is not responsible to the User for the actions of other Users.
- 6.4 In extreme cases accounts and funds can be partly limited, but not total limited or blocked; your assets will always be available for withdrawal, but will be stretched in time (x-TRX to withdrawal daily), because it will take time to clarify the circumstances and assess the consequences of artificial activity, namely, activities not for personal use, but to depress the balance of the system:
- a) Detection of similar registrations (more than two) from the same IP address.
- b) detection of brute force, ddos, and other attacks from your IP or collected trackers and cookies, indicating that you are creating malicious activity on our resource.
- c) rude, angry statements, threats to the support service, sending negative reviews and any other damage to the reputation and status of SwapStaking in the eyes of users.
- d) there may simply not be enough funds in the liquid cash register to carry out all transactions, due to strong fluctuations in the exchange rate of the main coin; a restriction may be imposed that will dynamically change in favor of participant.

Legislative act

- 7.0 By using swapstaking.com you agree by providing an informed decision in response to this agreement; you fully understand the following listed facts such as swapstaking.com has no direct or indirect relation to Polygon Blockchain, Matic Network and any other affiliated organizations and campaigns of the mentioned legal elements.
- 7.1 All possible complaints and feedback about the functioning of the System should be sent to the official email address of the project service@swapstaking.com
- 7.2 This website, including all information and materials provided on this website, is provided "as is", without warranties of any kind, express or implied, including, but not limited to, implied warranties of merchantability, fitness for a particular purpose.
- 7.3 swapstaking.com is not intended for any tax, legal, insurance or investment advice, and nothing on this site should be considered as a reason for the institution of legal and financial disputes in real life.
- 7.4 Settlements with swapstaking.com users are committed only via the cryptocurrencies, without the use of any banknotes and fiats and e-commerce.

Copyrights

- 8.0 SwapStakingTM uses free software solutions published in the public domain. All the resource information of "White Paper", "Resources", which coincides, combines or is similar to other organizations of the cryptocurrency industry, is informational and has no claims to authorship.
- 9.0 The market can tolerate huge fluctuations and we can stop providing profitability. In this case, if our stop limits work well, you will save 95% of your funds, and the daily profitability, in turn, may drop to zero values. In the event that Matic Network and other cryptocurrency blockchain systems on which the assets of swapstaking.com users will be located block our funds / addresses, we will not bear any responsibility for this and will not be able to make payments. In the event that the swapstaking.com domain name is blocked, we will migrate to the mirror in a short time and send the new resource address to all users. The register of deposits, users and their personal data is deeply hashed and protected from leakage, deletion and destruction. Investments are risky and this post is meant to reflect on risk management, not to discourage swapstaking.com trading proposition.
